VIII	<input type="checkbox"/>	Certain observations on the international application																							

Date of submission of the demand 10 September 1998	Date of completion of the report 8 December 1998
Name and mailing address of the IPEA/AU AUSTRALIAN PATENT OFFICE PO BOX 200 WODEN ACT 2606 AUSTRALIA Facsimile No. (02) 6285 3929	Authorized Officer  G.B. NATH Telephone No. (02) 6283 2126

I. Basis of the report1. With regard to the **elements** of the international application:*

- ☒ the international application as originally filed.
- ☐ the description, pages , as originally filed,
 pages , filed with the demand,
 pages , filed with the letter of .
- ☐ the claims, pages , as originally filed,
 pages , as amended (together with any statement) under Article 19,
 pages , filed with the demand,
 pages , filed with the letter of .
- ☐ the drawings, pages , as originally filed,
 pages , filed with the demand,
 pages , filed with the letter of .
- ☐ the sequence listing part of the description:
 pages , as originally filed
 pages , filed with the demand
 pages , filed with the letter of

2. With regard to the **language**, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language which is:

- ☐ the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, was on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished

4. ☐ The amendments have resulted in the cancellation of:

- ☐ the description, pages
- ☐ the claims, Nos.
- ☐ the drawings, sheets/fig

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims 1-10	YES
	Claims	NO
Inventive step (IS)	Claims 1-10	YES
	Claims	NO
Industrial applicability (IA)	Claims 1-10	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

2.1 NOVELTY (N), INVENTIVE STEP (IS)

Documents

D1 SE 8602258 A (HB GSB Bolaget Handelsbolag), 15 January 1988

D2 WO 82/01924 A (Design & Technology Services Pty Ltd), 10 June 1982

D3 Patent Abstracts of Japan, M-584, page 7, JP 61-270567 A (Taiyo Sangyo KK), 29 November 1986

Claim 1

The documents D1 to D3 are the closest prior art of which D2 is considered to be the most relevant. Figure 7 of D2 shows an arrangement wherein item 78 comprises the flexible barrier or in figure 2 wherein item 31 discloses the flexible barrier. But the flexible barrier does not define a chamber for containing fluid. Similarly in D1, the strap 8 (the flexible barrier in the figure) does not define a chamber for containing fluid. In D3, item 4 (rubber hose) is considered to be the flexible barrier but again it does not define a chamber for containing fluid.

In general, none of the documents disclose the feature of a chamber for containing fluid defined by a flexible barrier trapped between first and second surfaces and having a fluid inlet and outlet to control the flow into and out of the chamber defined by the flexible barrier.

Accordingly, claim 1 is considered to be novel and to involve an inventive step.

Claims 2-10 are appended claims and are also considered to be novel and involve an inventive step.

2.2 All the claims satisfy the criteria of Industrial applicability.
